

# **SHAMROCK HOMES**

## **BUILDING GREEN**

**Over the years Shamrock Homes has consistently made efforts to improve our methods of system built construction to maintain high levels of energy efficiency and waste management. We are currently combining 40 years of systems built knowledge with responsible environment friendly techniques to improve, even more so, in allowing our network of builders and their customers, to benefit from **GREEN** construction methods. How do we do it? Some of the standard Shamrock building methods and features are listed below. All these items are already offered through Shamrock at no additional charge.**

**R19 insulation in 2" x 6" sidewalls  
OSB Sheathing and Decking  
Recycled Content Carpet Pad  
Insulated Exterior Doors  
Recycling of our "Scrap" materials  
Windows with Low E, Argon filled glass  
Low VOC Paint**

**CALL SHAMROCK HOMES AND ASK HOW WE CAN MAKE YOUR NEXT PROJECT **GREEN**. WE ARE COMMITTED TO BUILDING ENERGY EFFICIENT SYSTEM BUILT HOMES FOR OUR NETWORK OF BUILDERS.**
